David Lundblad

1956 - 2026

Stick and Rudder

This Month's Cover:

Wally Sundry's very impressive Waco YMF-5 with a 90.5" wingspan, powered by a 60CC engine from Phoenix Models. This aircraft is available through Tower Hobbies as an ARF.

By IRCC President Kevin Pazda

General Update – I am sad to announce the passing of one of our members. David Lundblad took his final flight on June 12th. A fellow club member and a devoted servant to his community. David passed away peacefully, leaving behind a legacy of kindness, faith, and passion.

Skydivers – Benny Paz has been seen recently at the field with a new flying machine. The machine is about the size of a G.I. Joe and is a fully functioning sky diver! It is a treat to see it fly. Stop by the field to see if you can catch the show.

AED - The AED has been deployed, and training sessions have been held. Information was also included in the last newsletter to help guide those who were unable to attend.

Mowing – I was recently told by an astute observer that they could see the grass growing over a period of a couple of hours. If you have an interest and have some time to mow some grass, make it known. If you could help schedule the volunteers, that would help out as well. If you like changing oil or sharpening lawn mower blades, we have a place for you as well; this can be a team effort.

Open gates –I encourage everyone to continue to close and lock the gate when they are the last ones out.

Health and Wellbeing – Summer has arrived, and the mid-day temperatures have been brutal! Take care not to overexert yourself, stay hydrated, take those rest breaks when you need them, and watch out for one another.

Storm preparation – We have been blessed with a slow start to Florida's storm season. In the event of an approaching storm, we would like to have a few people available willing to help secure the flying site. The usual drill is to collect the chairs, tables, and various stands, and strap them down or store them away. If you are willing to be added to the storm prep contact list, let me know so we may better communicate and coordinate.

Stick and Rudder Continued

Upcoming IRCC events

- **National model aviation day, August 22nd, complete with our Tri-Fecta Fun Fly!**

I hope you get out to the field, get in a couple of flights, look out for your neighbor, and enjoy the little things.

A handwritten signature in black ink that reads "Kevin Pazda". The signature is written in a cursive, flowing style and is positioned on a white rectangular background.

Sincerely,
Kevin Pazda
Imperial R/C Club President 2026

We are hobbyists who dream, design, build, and fly model aircraft of all sizes for fun and competition. We do this because we enjoy the company of fellow enthusiasts, we love flight, and we want to see participation in our hobby grow.

Stick and Rudder Continued

Continuous Information Update:

The 100 RC Missions Over Florida is alive and well for the 8th consecutive year! The 100 Missions flight log is posted in the case at the center of the main pavilion. Remember, this is a “Health Barometer”; if you’re feeling sick or curmudgeonly, come to the field, log some flights and you’re guaranteed to feel better! Even if you get your “100”, please keep logging your sorties throughout the year as it is interesting to see the number of sorties that get logged by our members.

If you notice anything broken or destroyed at the IRCC facility, please let Bill Pawl know about it and set the item aside, out of the way so that we may dispose of it properly.

If you’re interested in joining the grass-cutting crew and you can spare some time to join the crew, it would certainly be appreciated to give those who are currently on the crew some welcomed relief, as it takes a few hours to cut the field so that all of our members can fly safely on our well-manicured field and runways! Tom Carracino will coordinate any training needed to operate the equipment. Please contact Tom Carracino via email at pcgboca@yahoo.com to join the crew!

As a reminder, please do not fly over our northern boundary, which is the Se7en Wetlands and a bird sanctuary just north of our field. If you see someone flying over the wetlands, say something to that pilot! The IRCC membership has been doing a great job not flying over this boundary since it was made aware to us in February 2020!

No guest should be flying unless they are invited by an IRCC member, the member is present when their guest arrives, and the guest has a valid AMA membership. If you’re unsure, ask the person in question to see their AMA and who their IRCC sponsor is. As a member of the IRCC you have that right.

Get out to the field, introduce yourself to someone you don’t know, and make a new friend, when landing keep your wings level with the horizon and main gears first as gently as you can!

See you at the field!

Kevin Pazda

Imperial R/C Club President 2026

Heat Exhaustion	Heat Stroke
ACT FAST • Move to a cooler area • Loosen clothing • Sip cool water • Seek medical help if symptoms don't improve	ACT FAST CALL 911 • Move person to a cooler area • Loosen clothing and remove extra layers • Cool with water or ice

IRCC Meeting Minutes

June 6, 2026

Total Adult members 78 / Needed for Quorum (20% w/2 Officers) 16

Members Present: 27

- The Pledge of Allegiance. Said at 10:00 am
Visitors or new members. Buzzy Biddle, new member. Larry McNeil, returning member
- Awards/Certificates
- Model of the month certificates, Glenn Griffin
- 100 missions? Esteban Ortiz missed last meeting; Keith Genske
- Minutes – Motion to accept as published in the newsletter. Accepted
- Treasurer Report – June payments due for those who split the year. All good
- Membership Report Currently 79 Full adults, 86 total
- Field and Maintenance Report – Any Issues? None
- Instructors Report – Preston is progressing well teaching River
- Safety Report - Discussion about number of planes flying at one time
- Club Newsletter - Jerry McGhee All good
- Website - Ron McKie All good
- New Field Developments – none
- Old Business –
 - Frank Tiano recap and debrief: Thanks for all the help; a little over 1500.00 raised
 - AED Update reminder that it is available
 - Camera system update: working batteries getting low at night; working to fix the problem
- New Business Tom Carracino suggested an Ugly Stick event.
- Future Events (6-month look ahead)
 1. National Model Aviation Day 2026 will be celebrated on Saturday, August 22, 2026. This day is dedicated to promoting the hobby of model aviation and encouraging clubs to celebrate it with community events. The AMA Foundation is excited to host various activities and events on this day. Making it a great opportunity for model aviation enthusiasts to gather and share their passion for flying models._

IRCC Meeting Minutes Continued

- Over and Above Award: Drew Powell and the lawn crew
- From the Shop – Bob Curry
- Model of the Month - Wally Sundry for his Phoenix Waco

Announcements:

- 50/50 Drawing - Brian Rivers \$58.00
- Meeting Closed. 10:50

The End

IRCC member Bob Curry took this magnificent photo from his Avelo flight from Lakeland, FL to Connecticut on June 9, 2026.

Bob wrote:

“Descending into Connecticut on a wing and a prayer”

IRCC Meeting Day

June 2026

Steve Ortiz earned his 100 RC Missions over Florida Patch!

Todd Beatty earned his 100 Missions Over Florida Patch

Glenn Griffin receives his Model of the Month Cover for May 2026

IRCC members Preston Valk instructor pilot for River White. Preston reports that River is doing quite well in his training!

Benny Paz demonstrates how to jump out of a perfectly good RC Plane!

IRCC Meeting Day

June 2026

Wally Sunde discusses his award-winning Model of the Month to the IRCC membership!

Tom Carracino and his Viper Pink Panther Jet on the runway!

Classic Ugly Stick, waiting to go up and rip up the sky!

The IRCC June 2026 Meeting under way
27 members present of 78 total.

SAFETY MESSAGE

FLIGHT LINE SAFETY COMMUNICATION SAVES AIRPLANES!

CLEAR COMMUNICATION KEEPS OUR AIRCRAFT,
EACH OTHER, AND OUR FIELD **SAFE!**

1 BEFORE TAKEOFF

Always announce your takeoff.

TAKING OFF!

Wait for **confirmation**
from other pilots.
"CLEAR!" "YOU'RE GOOD!"

2 BEFORE LANDING

Always announce your landing well in advance.

LANDING!

Give others time to adjust and wait for **confirmation** that they heard you.

3 BEFORE ENTERING THE RUNWAY

Before placing an aircraft on the runway, **STOP** and look both ways.

- Is anyone on final approach?
- Is someone setting up for a touch-and-go?
- Is another pilot preparing to land?

Never enter the runway unless you are certain it is clear and safe.

**NEVER ASSUME
THE RUNWAY IS CLEAR!**

**A FEW SECONDS CAN
PREVENT AN ACCIDENT.**

4 RETRIEVING AN AIRCRAFT

When retrieving an aircraft from the runway or flight area:

**ON THE RUNWAY!
CROSSING THE RUNWAY!**

- ✓ Make eye contact with active pilots.
- ✓ Wait for acknowledgment before entering.
- ✓ Do not assume they heard you.
- ✓ Call out again if needed.

5 REMEMBER

ANNOUNCE
your intentions.

GET CONFIRMATION
from other pilots.

MAKE SURE
everyone understands
what is happening.

NEVER ASSUME
someone heard your call.

COMMUNICATE. CONFIRM. FLY SAFE.

RESPECT THE PILOTS. PROTECT THE AIRPLANES. ENJOY THE HOBBY!

NATIONAL MODEL AVIATION DAY

9th Annual IRCC TRIFECTA FUN FLY CONTEST RULES

9th Annual IRCC TRIFECTA FUN FLY

The events for this Club Fun-Fly are meant to be non-plane-breaking events that any aircraft can do, that will test your skill and your luck. Have fun, stay safe, keep your wings level, and hit whatever you're going to hit as gently as you can. This Fun Fly will take place on **Saturday, August 22, 2026**, at 08:30 AM start time in conjunction with the IRCC Family Day and the AMA's National Model Aviation Day. This early start allows us to finish before any unscheduled afternoon thunderstorms.

TROPHIES and RIBBONS

Three events, 1st, 2nd, and 3rd place for each event, with a ribbon for each place.
1st, 2nd, and 3rd place trophies for overall combined scores to the top three finishers.

THE EVENTS

Event 1: Fly for 2 minutes

Event 2: Precision Landing

Event 3: Guess Your Speed

MAXIMUM POINTS PER EVENT:

EVENT 1: 100

EVENT 2: 120

EVENT 3: 100

TOTAL MAXIMUM NUMBER OF POINTS COMBINED: 320 Points

THE UNBENDABLE RULES FOR ALL EVENTS

1. Qualifications: Must be an IRCC member (or a guest of an IRCC member)
2. **2022 Rule Addendum: A pilot may use a different aircraft for each event; however, in the event the aircraft does not complete an event, a substitute aircraft will not be used to complete the event.**
3. Scoring: For a score to be tallied, at least one wheel needs to land on the paved runway in each event before contacting the ground.
4. Any crash in any event will result in a score of Zero for that event. Contestants will finish with the points they have earned before the crash.

INDIVIDUAL EVENT RULES:

EVENT 1: FLY FOR TWO MINUTES

Time begins when the aircraft wheels leave the ground. The pilot commences to fly his/her aircraft for two minutes without the aid of any timer or encouragement from the crowd and/or bystanders. Detection of transmitter timers will result in a zero score. Time ends when the aircraft lands on the paved runway. The closest to the 2-minute time mark + or - (under or over the 2 minutes) will be ranked. Scoring is as follows:

1st – 100 points

2nd – 75 points

3rd – 50 points

4th and below – 25 points

EVENT 2: PRECISION LANDING

Pilots will take off and make three touch-and-go landings with each landing being scored on the zone the wheel(s) touch into. IRCC Runway is 585 feet long. The scoring portion for this event will be 152 feet of scoring zones on the runway divided into 7 zones of 32' 24' 16' 8' 16' 24' 32'. In case of wind direction change, the direction of the take-off will determine the score sequence.

i.e. left to right take off. The score will be 10/20/30/40/20/10/5

One wheel of the main landing gear has to contact the scoring section of the runway and aircraft must maintain control after landing and remain in an airworthy condition.

There will be 3 scored attempts, the pilot will have to call the landing prior to entering the base leg. If the pilot fails to land the score will be 0 and one attempt will be used. Any go-around without touching the runway will result in a zero score.

TAKE-OFF DIRECTION 

 TAKE-OFF DIRECTION

EVENT 3: Guess Your Speed

The pilot will call his speed prior to the flight. The pilot will then take his/her aircraft off and have three attempts to fly at that speed. Speed will be measured by a Doppler radar gun. The closest matched speed of the three attempts to the speed called by the pilot will win. The pilot may call any speed prior to take off. For example: Pilot 1 calls 45 mph and flies 46mph. Pilot 2 calls 55 mph and flies 53 mph. Pilot 1 would win as they are +1mph and pilot 2 is - 2 mph. If 1 pilot fails to land on the paved runway the score is 0.

Scoring is as follows:

1st – 100 points

2nd – 75 points

3rd – 50 points

4th and below – 25 points
