This Month's Cover:

Benny Paz brings his RC parachute in for another safe landing after being dropped from an RC Airplane high above the IRCC Aerodrome! Benny's winning entry became this month's Model of the Month Entry! Congratulations Benny!

By IRCC President Kevin Pazda

Here it is nearing the end of July, and I am embarrassed to say that I have missed most of the action at the field this month. I did sneak out the other night to have a look around, and everything appeared to be in good shape. I am delighted to see the participation in the mowing effort. Thank you to all who have been involved.

Mowing – Jerry McGhee has created a schedule for mowing and has some open spots that need to be filled. If you have interest and have some time to mow some grass, make it known. I will say that it is very satisfying to stop and look around at the freshly cut field, enjoy the smell of the grass, and be proud of a finished job.

Open gates –I encourage everyone to continue to close and lock the gate when they are the last ones out.

Health and Wellbeing – Summer has arrived; take care not to overexert yourself, stay hydrated, and take those rest breaks when you need them, and watch out for one another.

As a child in Florida: "Counting down the days till summer was like I was about to win the lottery."

As an adult in Florida: "Counting down the days till summer is over like I'm begging the Sun to stop slow-roasting me like a Publix rotisserie chicken."

Field maintenance items – There are a few items that are in need of some attention. If you have ideas for solutions, let me know what they are:

- Runway cracks – There are some that need some love; the mode that we are in is to patch and stabilize. The biggest offender is on the main runway, West of the West pilot station. I understand that Rural King has pothole repair material that comes recommended.
- Main entry – The container trailers, heavy trucks, and other equipment that have been moving in and out of the property have caused a rather large mud puddle in the entrance. I'll be contacting the property owner to see what he may do to provide some relief in that area.

Stick and Rudder Continued

Upcoming IRCC events

- **National Model Aviation Day August 22nd complete with our Tri-Fecta Fun Fly!**

I hope you get out to the field, get in a couple of flights, look out for your neighbor, and enjoy the little things.

A handwritten signature in black ink that reads "Kevin Pazda". The signature is written in a cursive, flowing style and is positioned on a white rectangular background.

Sincerely,
Kevin Pazda
Imperial R/C Club President 2026

We are hobbyists who dream, design, build, and fly model aircraft of all sizes for fun and competition. We do this because we enjoy the company of fellow enthusiasts, we love flight, and we want to see participation in our hobby grow.

Stick and Rudder Continued

Continuous Information Update:

The 100 RC Missions Over Florida is alive and well for the 8th consecutive year! The 100 Missions flight log is posted in the case at the center of the main pavilion. Remember, this is a “Health Barometer”; if you’re feeling sick or curmudgeonly, come to the field, log some flights and you’re guaranteed to feel better! Even if you get your “100”, please keep logging your sorties throughout the year as it is interesting to see the number of sorties that get logged by our members.

If you notice anything broken or destroyed at the IRCC facility, please let Bill Pawl know about it and set the item aside, out of the way so that we may dispose of it properly.

Every Marine is a Rifleman and every member of the IRCC is a grass mower. We have a club of over 100 members and we need everyone to take their turn cutting the grass. It takes a few hours to cut the field so that all of our members can fly safely on our well-manicured field and runways! Jerry McGhee will coordinate any training needed to operate the equipment. Please contact Jerry McGhee via email at mcghee66@gmail.com to join the crew!

As a reminder, please do not fly over our northern boundary, which is the Se7en Wetlands and a bird sanctuary just north of our field. If you see someone flying over the wetlands, say something to that pilot! The IRCC membership has been doing a great job not flying over this boundary since it was made aware to us in February 2020!

No guest should be flying unless they are invited by an IRCC member, the member is present when their guest arrives, and the guest has a valid AMA membership. If you’re unsure, ask the person in question to see their AMA and who their IRCC sponsor is. As a member of the IRCC you have that right.

Get out to the field, introduce yourself to someone you don’t know, and make a new friend, when landing keep your wings level with the horizon and main gears first as gently as you can!

See you at the field!

Kevin Pazda

Imperial R/C Club President 2026

Heat Exhaustion	Heat Stroke
ACT FAST • Move to a cooler area • Loosen clothing • Sip cool water • Seek medical help if symptoms don't improve	ACT FAST CALL 911 • Move person to a cooler area • Loosen clothing and remove extra layers • Cool with water or ice
Dizziness Thirst Heavy Sweating Nausea Weakness	Confusion Dizziness Becomes Unconscious
Heat exhaustion can lead to heat stroke.	
Heat stroke can cause death or permanent disability if emergency treatment is not given.	

Stay Cool, Stay Hydrated, Stay Informed!

IRCC Meeting Minutes

July 4, 2026

Total Adult members 78 / Needed for Quorum (20% w/2 Officers) 16

Members Present: 27

- The Pledge of Allegiance was recited at 10:00 am by all in attendance and the meeting was called to order.
- Visitors or new members: Danny Milla, returning member; Mike Smith, new member, and Adell Reed, visitor
- Awards/Certificates
 - Model of the month certificate: Wally Sundey
 - 100 missions: Jimmy Enderton, Preston Valk, Jeff Hughes, Greg Kiser
- Minutes – Motion to accept as published in the newsletter. Accepted
- Treasurer's Report – June payments due for those who split the year. All Good
- Membership Report – Currently 78 Full adults, 85 total
- Field and Maintenance Report
 - Mower operators and maintenance volunteers needed.
 - Golf Balls found in the flying area and grass runway by the mowing crew, damaging the zero-turn mower. A motion was made to ban all golfing activity from the IRCC, the motion was seconded and passed unanimously by the members. Violators will be trespassed and membership terminated. Video surveillance has been installed at the field to assist in enforcement of this new rule.
- Instructors Report – Tom Carracino Starting with Mike Smith today
- Safety Report: Bob Curry reported that Heat and hydration: Hydrate and take care with props and batteries. No safety issues noted.
- Club Newsletter - Jerry McGhee All good
- Website - Ron McKie no issues
- New Field Developments – none
- Old Business –
 - AED Update: it is here and usable
 - Camera system update: working on improved power solution

IRCC Meeting Minutes Continued

- New Business: Larry Odom suggested getting a larger rotary mower; this will be discussed by the executive committee
- Future Events (6-month look ahead)
- National Model Aviation Day 2026 will be celebrated on Saturday, August 22, 2026. This day is dedicated to promoting the hobby of model aviation and encouraging clubs to celebrate it with community events. The AMA Foundation is excited to host various activities and events on this day, making it a great opportunity for model aviation enthusiasts to gather and share their passion for flying models.
- Benny Paz had a meeting with Lakeland Airport about using Paradise Field. It was a no. However, they will sponsor the event and promote it also; we will have a booth at Fun and Sun next year. Sanctioning has been done and approved for 4/2/2027-5/2/2027
- Over and Above Award: Benny Paz for his work with Lakeland Airport and Sun and Fun
- Model of the Month - Benny Paz for his Paratrooper
- Announcements: David Raff Has Balsa wood for sale
- Keith Genske reported that the new Radiomaster Transmitter is amazing and reliable!
- 50/50 Drawing - Preston Valk 65.00
- Meeting Closed.11:07

The End

MORNINGS = AWESOME | AFTERNOONS = APOCALYPSE

David Raff's Sweet new RC Trailer Set-up

David Raff's new RC Trailer buildout using parts he found on Amazon.com that give him RC Plane security while traveling and flexibility to modify the space. He integrated a lot of the parts with other items like PVC, custom wing storage and a dog crate, custom shelving to keep all of his radio and starting gear in place. Great Job Dave! Check it out when you see him at the field!

Above: Bob and Sean Curry, Father/Son Duo, show off Bob's 1/4 scale Balsa USA Fokker DVII. Bob built this in 2025 and successfully maiden it in 2026.

Top Right: Bob Curry's work on the empennage of his 2026 build, a Fleet Biplane. Bob shared progress with us at the July 4th meeting.

Right: Bob shows us how he started the fuselage for his 2026 Fleet Biplane build.

NATIONAL MODEL AVIATION DAY

9th Annual IRCC TRIFECTA FUN FLY CONTEST RULES

9th Annual IRCC TRIFECTA FUN FLY

The events for this Club Fun-Fly are meant to be non-plane-breaking events that any aircraft can do, that will test your skill and your luck. Have fun, stay safe, keep your wings level, and hit whatever you're going to hit as gently as you can. This Fun Fly will take place on **Saturday, August 22, 2026**, at 08:30 AM start time in conjunction with the IRCC Family Day and the AMA's National Model Aviation Day. This early start allows us to finish before any unscheduled afternoon thunderstorms.

TROPHIES and RIBBONS

Three events, 1st, 2nd, and 3rd place for each event, with a ribbon for each place.
1st, 2nd, and 3rd place trophies for overall combined scores to the top three finishers.

THE EVENTS

Event 1: Fly for 2 minutes

Event 2: Precision Landing

Event 3: Guess Your Speed

MAXIMUM POINTS PER EVENT:

EVENT 1: 100

EVENT 2: 120

EVENT 3: 100

TOTAL MAXIMUM NUMBER OF POINTS COMBINED: 320 Points

THE UNBENDABLE RULES FOR ALL EVENTS

1. Qualifications: Must be an IRCC member (or a guest of an IRCC member)
2. **2022 Rule Addendum: A pilot may use a different aircraft for each event; however, in the event the aircraft does not complete an event, a substitute aircraft will not be used to complete the event.**
3. Scoring: For a score to be tallied, at least one wheel needs to land on the paved runway in each event before contacting the ground.
4. Any crash in any event will result in a score of Zero for that event. Contestants will finish with the points they have earned before the crash.

INDIVIDUAL EVENT RULES:

EVENT 1: FLY FOR TWO MINUTES

Time begins when the aircraft wheels leave the ground. The pilot commences to fly his/her aircraft for two minutes without the aid of any timer or encouragement from the crowd and/or bystanders. Detection of transmitter timers will result in a zero score. Time ends when the aircraft lands on the paved runway. The closest to the 2-minute time mark + or - (under or over the 2 minutes) will be ranked. Scoring is as follows:

1st – 100 points

2nd – 75 points

3rd – 50 points

4th and below – 25 points

EVENT 2: PRECISION LANDING

Pilots will take off and make three touch-and-go landings with each landing being scored on the zone the wheel(s) touch into. IRCC Runway is 585 feet long. The scoring portion for this event will be 152 feet of scoring zones on the runway divided into 7 zones of 32' 24' 16' 8' 16' 24' 32'. In case of wind direction change, the direction of the take-off will determine the score sequence.

i.e. left to right take off. The score will be 10/20/30/40/20/10/5

One wheel of the main landing gear has to contact the scoring section of the runway and aircraft must maintain control after landing and remain in an airworthy condition.

There will be 3 scored attempts, the pilot will have to call the landing prior to entering the base leg. If the pilot fails to land the score will be 0 and one attempt will be used. Any go-around without touching the runway will result in a zero score.

TAKE-OFF DIRECTION 

 TAKE-OFF DIRECTION

EVENT 3: Guess Your Speed

The pilot will call his speed prior to the flight. The pilot will then take his/her aircraft off and have three attempts to fly at that speed. Speed will be measured by a Doppler radar gun. The closest matched speed of the three attempts to the speed called by the pilot will win. The pilot may call any speed prior to take off. For example: Pilot 1 calls 45 mph and flies 46mph. Pilot 2 calls 55 mph and flies 53 mph. Pilot 1 would win as they are +1mph and pilot 2 is - 2 mph. If 1 pilot fails to land on the paved runway the score is 0.

Scoring is as follows:

1st – 100 points

2nd – 75 points

3rd – 50 points

4th and below – 25 points
